

The CSS Apprenticeship Program is a first of its kind apprenticeship program that is tailored to the technical field of occupational safety and health.

Our purpose is to provide an alternative option to either traditional education or pure field experience.

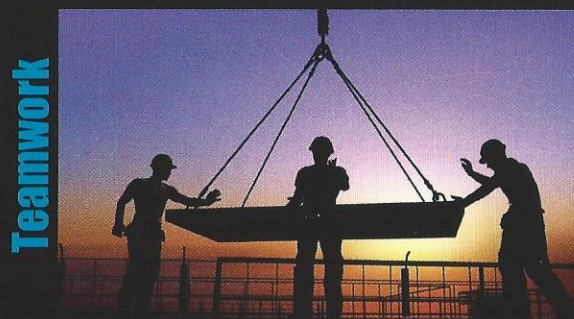

This program will provide a mix of both classroom training, delivered through online safety courses along with two years of on the job training experience with one of our registered training agents.

## BECOME A TRAINING AGENT

Apprenticeship is a career path for your workforce that provides stability and loyalty at your organization. It also provides the opportunity for employees to expand their knowledge and skill level. When an apprentice completes their program, they are more inclined to grow with your business because they are already invested in your company.

### Your financial ROI:

According to a study published by the \*Department of Labor in 2016, employers earn an ROI of between \$1.30 and \$3.00 for every \$1.00 invested in apprenticeship training.

\* The Benefits and Costs of Apprenticeship: A Business Perspective, Washington State Labor & Industries, November 2016, <http://www.lni.wa.gov/TradesLicensing/Apprenticeship/Employers/default.asp#2>

Apprenticeship programs improve student's communication skills, teamwork, knowledge and analytical skills, that employers' value in their employees.

## BECOME AN APPRENTICE

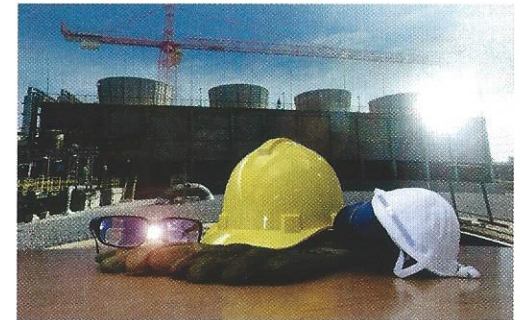

If you are looking for a satisfying, long-term career and would enjoy ensuring that your fellow workers go home safely at the end of every workday, then a profession in the field of Occupational Safety and Health might be a good fit for you.

As an apprentice, you will work at a full-time job while training with a mentor and earning wages and benefits. In addition, you will attend on-line classes to learn the theory behind the training.

Within two years, you could earn a Journey Level Certificate and the pay that comes with it. You also earn credits towards an Associate's degree in Occupational Safety and Health from Edmonds Community College.

A career in Occupational Safety and Health is an opportunity to earn a family wage and advance your career.
