YWCA IS ON A MISSION

More about the YWCA Manufacturing Career Pathways For Women Program

Why work in the trades?

Our state is a leader in manufacturing, and as current workers retire there will be a greater need for skilled workers to fill their positions. These jobs are no longer dirty and dangerous but dynamic and specialized requiring finesse and technical expertise. Learn more about good paying career opportunities for women in this rapidly changing field!

What you can learn:

Courses to be offered include: automotive technology, welding fabrication, industrial manufacturing, aerospace composites, aviation electronics, and CNC machining.

These skills can help you start a career as: an assembler, fabricator, production technician, sheet metal technician, CNC programmer, machinist, automotive technician and more!

START TODAY!

Contact the Manufacturing Career Pathways for Women program T Ellingson at (206) 436-8633.

This program is managed by YWCA Seattle | King | Snohomish and offered in partnership with:
